

THE SOLID NEWS

Thank you for attending the 1st Meeting of the Tech Valley SolidWorks Users' Group on October 21st at Applied Robotics, Inc.

A special Thank You to our Sponsors;

Tec-Ease, Inc
ConnSWUG
NESWUC
iGETIT
Rapid Sheet Metal, Inc.
Applied Robotics, Inc.

Meeting Minutes & Notes

First order of business was a facility tour of Applied Robotics, Inc. lead by their Vice President, Cliff Annis. Cliff introduced the group to some of ARI's product line and staff. Tom Marcella and Joe Delmonaco also lead some of the tour, demonstrating one of ARI's newest inventions.

Cliff Annis

Speakers

Don Day, President of Tec-Ease, Inc., gave a fantastic presentation on the overall 'Benefits of Geometric Dimensioning and Tolerancing' that was very well received. In fact, I've already had a couple of our members ask that we invite Don back for a longer, more detailed presentation of GD&T! Great job, Don! We appreciate you coming out!

Our second speaker was Edson Gebo of the Connecticut group ConnSWUG. He offered a very informative 'File Management Techniques' presentation. I was very impressed with the group's participation! Everyone seemed to have their questions answered or excellent feedback to offer. The next **ConnSWUG meeting will be Wednesday, December 8th, 2010** at the Eli Whitney Museum in Hamden, CT.

If you are interested in attending, please contact Edson @edgebo@connswug.com

**SOLIDWORKS WORLD 2011
JANUARY 23-26
Henry B. Gonzalez Convention Center
San Antonio, Texas**

What are the benefits of attending SolidWorks World? You can:

Learn how you can work faster and be more efficient. Choose from over 150 technical breakout sessions led by SolidWorks users and industry experts.

Network with other SolidWorks users, Solution Partners, resellers, and SolidWorks employees.

Explore the latest in 3D design and technology, offered by more than 100 exhibitors in the SolidWorks Partner Pavilion.

CSWP & CSWA Certification
When you register to attend SolidWorks World 2011 you get the opportunity to take the Certified SolidWorks Professional (CSWP) or Certified SolidWorks Associate (CSWA) exam alongside other SolidWorks users—at no charge!

Tech Valley Helpers!

If you would like to volunteer your time to help out TVSWUG in any way, please let [Rachel York \(rmoree@appliedrobotics.com\)](mailto:rmoree@appliedrobotics.com) or [Joanne Brown \(jbrown@appliedrobotics.com\)](mailto:jbrown@appliedrobotics.com) know.

Any help/time/suggestions you could offer would be greatly appreciated.

We will keep you all posted on our next meeting date and location (**early February 2011**).

I would like to also take the time to thank everyone here at Applied Robotics, Inc. who offered their time to help out with this. You are all awesome! Thank you!
